Okay friends, I know you're wondering about what I'm doing with a harpsichord at my studio... get over it.. we all have skeletons in our closet!

But, enough is enough, time for it to go... after 20 years I've come to the realization that I will NEVER put it together.

It's a Flemming kit from Zuckermann. 7 footer.. partially built, needs parts and ALOT of love... You pick it up.. (suggest you have a TRUCK with a long bed). \$100 or best offer.
